

ABOUT US

Established in 1977, Bransby Bunny Timber Buildings is a family run business and has earned an enviable reputation in manufacturing timber buildings of the highest quality and provide an unequalled customer service. We supply a wide range of buildings direct to the customer. However, if you are unable to find the exact building you are looking for then do not hesitate to contact the office for information. We build to customers own personal requirements and design specification.

Whatever the timber, fittings or materials used in the construction of our buildings, they are carefully selected, with each project constantly monitored for quality at every stage through the factory. All our staff have a responsibility to work to the highest standards so that on final installation, any Bransby Bunny building will automatically compliment it's surroundings. Our company is committed to achieving customer satisfaction for you.

HOW TO ORDER

If you're at the show, feel free to come to the Bransby Bunny stand and have a chat with a lovely member of our staff.

Alternatively, you can visit our show site in Lincolnshire, or ring the office.
